The Department of Computer Engineering organized a Two-day industrial visit to eInfochips, Ahmedabad on 27th March 2020 & 28th March 2020 for students of B.E. 6th Semester (CE) MBIT.

About the Company:

eInfochips, an Arrow company, is a leading global provider of product engineering and semiconductor design services. With over 500+ products developed and 40M deployments in 140 countries, eInfochips continues to fuel technological innovations in multiple verticals. The company's service offerings include digital transformation and connected IoT solutions across various cloud platforms, including AWS and Azure.

Along with Arrow's \$27B in revenues, 19,000 employees, and 345 locations serving over 80 countries, eInfochips is primed to accelerate connected products innovation for 150,000+ global clients. eInfochips acts as a catalyst to Arrow's Sensor-to-Sunset initiative and offers complete edge-to-cloud capabilities for its clients through Arrow Connect.

About Visit:

The journey to e-Infochips started at 7:30 from MBIT college. We reached to eInfochips, Ahmedabad Industry Park at 10:00 AM. The Team of eInfochips, Ahmedabad welcomes us with a great feel in mind.

Project Manager assists us in providing information about the company and its projects, in addition, the working environment of IT companies. Three groups were formed under the guidance of professionals who have guided the teams to various services and products made as well and explained the technology behind every project. The company mainly providing services to clients according to customer requirements. Project Manager lay down information on how the company efficiently works, what are the projects and technologies their company mainly focuses on and works with.

The company has provided good and hygienic food for students. After getting lunch, Students then were divided into two groups, each lead by a faculty. The students were existed and curious to visit the project display room. The project display room was filled with the projects that the company has either made or has assisted to in association with the other companies.

We were given a brief note on every project present in the room. It was informative as well as stimulating. There were a bunch of interesting projects. Each one was unique and outshining in its own way.

After project expo, Students got the chance to meet their alumni, who share their experiences and techniques to get into the IT industry. Company Executive addresses the students. They have a very good interactive session where students have asked questions about IT industries

experts. The executive has answered them to the point. With great memories in mind finished the Q&A session and proceeds for a group photo.

It was a good experience, which has provided exposure to the B. E. 6th Semester students with industrial life. The students are benefited in terms of the technical details provided by the company on an important part of Recruitment Policy by Company and Various Career Opportunities in industries. The students and faculty members have enjoyed the technical endeavor at these organizations a lot. The company persons also appreciated our students after the question-answer sessions. The visit seems to be very informative and gives a good learning experience. The trip was a memorable one for each and every one on the bus.

The students are grateful to the PRINCIPAL Prof. Dr. Archana Nanoty, the in-charge faculty Prof. Ankita Chauhan, Prof. Sunit Parmar and Prof. Jayna Donga who worked their fingers to bone for making the visit successful.
