Discover MBICT

Madhuben and Bhanubhai Patel Women Institute of Engineering for studies & research in Computer & Communication Technology is iconoclastic spirit of Charutar Vidya Mandal in many aspects. It is an engineering college exclusively for girls and has introduced need-of-the day courses like Computer Engineering (CE) and Information Technology (IT). MBICT epitomizes the commitment of Charutar Vidya Mandal towards academia and society as, on the line of women empowerment, the institute professes to add to the technical quantum competent women engineers. The committed staff of MBICT is aware of its responsibility to penetrate the conventional teaching-learning process and prepare a generation of young and competent engineers who can implement technical advances for the betterment of our society.

- Campus/ Pool Drives
- Majority students placed in industry
- Many pursuing ME/MBA in India/ USA/Australia/Canada
- Technical, Aptitude, Resume Building, Personal Interview, Group Discussion
- Career Guidance Seminars by Training Experts

The Management - CVM

Charutar Vidya Mandal (CVM) established in 1945 as a registered charitable trust, has been striving ever since for the upliftment of rural society through education. Today CVM manages over forty nine educational institutions. Over the span of seven decades, CVM has been making spectacular progress having been responsive to changing socio economic environment by venturing into various emerging disciplines under the dynamic leadership of Er. Bhikhubhai B. Patel.

I believe that education is the fundamental method of social progress and reform. All reforms which rest simply upon the law, or the threat of certain penalties, are transitory and futile... But through education; society can formulate its own goals, can organize its own means and resources, and thus shape itself with definiteness and economy in the direction in which it wishes to move... Education thus conceived marks the most perfect and intimate union of science and art conceivable in human experience.
