

**Institution Name: Madhuben and Bhanubhai Patel Institute of Technology**

## **A Report on Securing Industrial Systems: AI and Emerging OT Cyber Security**

### **About the event:**

The CE Department of MBIT College, in collaboration with IEEE MBIT SB, organized a workshop on "Securing Industrial Systems: AI and OT Cybersecurity." The session provided valuable insights into personal cyber frauds, organizational cybersecurity, and the importance of securing Operational Technology (OT) in industrial environments. The expert speaker highlighted real-world cyber threats, attack methodologies, and best practices to enhance cybersecurity in both personal and professional domains. The workshop was highly engaging, equipping participants with practical knowledge on mitigating cyber risks in the evolving digital landscape.

The details of the event are as follows:

**Date: 05/03/2025**

**Time: 9:30 AM to 1:30 PM**

**Venue: MBIT D004-3**

**Expert Name: Mr. Divan Raimagia**

**Head of Cyber Security—CISO**

**Information Technology**

**Adani Green Energy Ltd.**

**Ahmedabad**

### **Objective:**

- To create awareness about the increasing risks of cyber threats in personal, organizational, and industrial systems.
- To educate students on common personal cyber frauds like phishing, financial scams, and identity theft.
- To introduce the concept of Operational Technology (OT) cybersecurity and its importance in protecting industrial systems.
- To explain how cybercriminals target industrial sectors such as manufacturing, energy, and transportation.
- To provide insights into organizational cybersecurity practices, including network security and incident response.
