Objective:

- To provide guidance and motivate students how to become an entrepreneur, how to manage risks and how to balance professional and personal life.

Outcome/Benefit:

- Students were motivated to think beyond job roles, build startups, private businesses, and becoming entrepreneurs.
- Students were guided how IT engineers can move beyond job roles to build startups and private businesses, identify opportunities, overcome challenges, and how to move forward with confidence in the entrepreneurial ecosystem.
- Exposure to real-world startup scenarios. Attendees gained a deeper understanding of practical methodologies used by successful entrepreneurs worldwide.

Mode of Conduct:

- Off-line (Talk and Presentation)

Report On

Engineer to Entrepreneur – How IT Engineers build global business

Objective:
To provide valuable insights how to become an entrepreneur, how to manage risks and how to balance professional and personal life.

The Information Technology department of Madhuben & Bhanubhai Patel Institute of Technology (MBIT) successfully organized an Expert Lecture on " Engineer to Entrepreneur – How IT Engineers Build Global Business" on January 19, 2026. The event aimed to provide valuable insights how an engineer becomes an entrepreneur, how to manage risks and how to balance professional and personal life.

The Expert for the event was Mr. Jignesh patel, a Cloud Security and Identity Leader and a successful Entrepreneur, who has successfully built global expertise through innovation and entrepreneurship. He shared his expertise on how entrepreneurs can build and scale their businesses while minimizing risks and maximizing learning through an iterative approach. He motivated students to think beyond job roles, build startups, private businesses, and become an entrepreneur. He guided students, how IT engineers can move beyond job roles to build startups and private businesses, identify opportunities, overcome challenges, and how to move forward with confidence in the entrepreneurial ecosystem.

The session was highly interactive, with students and faculty members engaging in discussions on real-world startup scenarios. Attendees gained a deeper understanding of practical methodologies used by successful entrepreneurs worldwide.

Conclusion:
The seminar concluded with a Q&A session where students clarified their doubts about startup, Private business and entrepreneurship. The event was well-received, and participants appreciated the opportunity to learn from the expert.

The organizing team extends gratitude to all attendees, faculty members, and Mr. Jignesh Patel for making the session a grand success.
