Report On

Cyber Security: Essential tools in practice

Objective:

To make students Security aware from the cybercrimes and show practical implementation of different cyber security tools.

The Information Technology department of Madhuben & Bhanubhai Patel Institute of Technology (MBIT) successfully organized an Alumni Expert Lecture on "Cyber Security: Essential tools in practice" on August 13, 2026. The event aimed to provide valuable knowledge regarding cybercrimes and cyber security tools.

The Expert for the event was Mr. Kandarp Panchal, who is also an alumnus of our Institute MBIT. He is currently working as a cyber security expert at Cyber Security India, Vidyanagar which is a unit of Cyber Secure Innovations pvt. Ltd. He also worked at Forensic CyberTech Pvt. Ltd. as a digital Forensic Analyst. He has a good expertise and worked on different VAPT tools as well as different Cyber Forensic tools. He shared his expertise of different cyber security tools used by Cyber security experts. He also demonstrates the hardware and software that are used by criminals to compromise the systems. He practically explained the use of tools by which hacker can get the data. He also provides the knowledge about how we can be aware and be secure by cyber criminals.

The session was highly interactive, with students and faculty members engaging in discussions about cybercrime and incidences. Attendees gained good practical knowledge and exposure about different cyber security tools.

Conclusion:

The Expert session concluded with a Q&A session where students clarified their doubts about Cyber Security. The event was practical based, so students took interest in using different tools. The event was well-received, and participants appreciated the opportunity to learn from the expert.

The organizing team extends gratitude to all attendees, faculty members, Mr. Kandarp Panchal and whole Cyber Security India team for making the session a grand success.
